Enterprise-grade privacy and security

Google for Education provides industry-leading education technology that helps create a safer digital learning environment for every school, every classroom, and every student, offering more proactive security with AI-enhanced data loss prevention.

We've long shared robust privacy commitments that outline how we protect user data and prioritize privacy. Generative AI doesn't change these commitments — it actually reaffirms their importance.

Google Workspace with Gemini is covered under your [Google Workspace for Education Terms of Service](#), meaning:

Schools own and control their data, not Google

Your data is not used for advertising or shared with other organizations

Your data is not reviewed by anyone to improve AI models
